Undergraduate Degrees

2023 - 2024

Welcome to University of Galway

Did you know?

Global Business Accreditation

J.E. Cairnes School of Business & Economics is accredited by AACSB. This is the longest serving global accrediting body for business schools, and the largest business education network connecting students, educators, and businesses worldwide. Learn more <https://cairnes.universityofgalway.ie/aacsb/>

In September 2020 J.E. Cairnes School of Business & Economics was awarded a Bronze Athena SWAN Award in recognition of our progress on, and our commitment to, gender equality, inclusivity, and diversity and for providing opportunities for all staff and students, in a supportive environment. We are very pleased that the School of Business & Economics is the first non-STEM school to apply in University of Galway and to achieve this award.

175+ YEARS

University of Galway was founded in 1845 and 2020 marked the 175th anniversary of the foundation of the University. The University has been a defining presence and recognisable landmark in Galway City for almost two centuries.

University of Galway was named 'University of the Year 2022' in the Sunday Times Good University Guide, securing the prestigious accolade for a third time.

From Condé Nast to The New York Times, Galway has been voted the 'friendliest' and 'most charming' city by a number of global publications. Galway is a city overflowing with creativity from year-long festivals to the nurturing of business leaders whose impact is felt across the globe. We're part of a city with a big heart and soul, that's alive with passion and pride. Here is where we celebrate the place, the people, and the feeling of inclusivity that makes University of Galway so unique.

Why Study Here?

Become a Work Ready, Career Ready and World Ready Graduate

We are a School of Business and Economics for the public good. Energised by our regional edge on the west coast of Ireland, we are a globally-engaged School of Business and Economics for the public good that makes a transformative impact for students, society and business.

INNOVATIVE LEARNING

Our programmes, which place an unrelenting focus on the student learning experience, conform to the highest international standards. The exciting, stimulating and progressive learning environment enhances student engagement through a mix of large lectures and smaller groups of tutorials, as well as leadership in the use of online and blended technologies and entrepreneurship. This is fostered through internal and external business competitions.

WORLD CLASS TEACHING

Lecturers in the School are among the best in their fields and the media often seek out their expert advice on topical issues in the news. Our staff are also closely linked with industry - locally, nationally and internationally which allows them to ensure that their teaching is relevant to the fast-paced business world.

EMPLOYABILITY

Graduates in the areas of Business and/or Economics are of vital importance to the creation and advancement of the smart economy. Our graduates are highly sought-after by employers, with **98.5%** of graduates employed or in further study in the previous recorded five years.

100+ YEARS
of providing

STUDY ABROAD OPPORTUNITIES

Studying abroad can be of immense value for both personal and academic development and here at University of Galway we actively encourage our students to avail of opportunities to travel. This allows students to improve their language skills, experience different business cultures and customs and it also enhances their employment prospects. We have strong links with **80+** partner universities in Europe, North America, China, South Korea, Mexico, Japan, Hong Kong, Taiwan and Australia.

WORK PLACEMENT OPPORTUNITIES

All of our programmes give students the opportunity to avail of work placement and/or study abroad. For those who embark on work placement, the University will facilitate you in gaining relevant and career focused placement with one of our **250+** industry partners.

Some examples of our staff's expertise include:

Lecturers in Marketing **Professor Christine Domegan and Dr Declan Fleming** co-authored the widely used text book "Marketing Research in Ireland, Theory & Practice", Third Edition.

Professor Emer Mulligan Lecturer in Taxation and Finance and member of the Irish Taxation Institute and leading expert in tax planning and practices within multinationals. Winner of the Network Galway Outstanding Business Woman of the Year 2017.

Dr Deirdre Curran Lecturer in Management and Employment Relations was a winner of an inaugural "Teaching Hero" award run by the National Forum for the Enhancement of Teaching and Learning in Higher Education in partnership with the Union of Students in Ireland (USI). Chair of the Kennedy Institute Workplace Mediation Research Group (www.KIWMRG.ie)

Dr Michael Lang Senior Lecturer in Business Information Systems. He has published several articles in the area of information systems security, systems analysis and design, and database technologies and analytics.

Professor John McHale A graduate of Harvard, Former Dean of the College of Business, Public Policy and Law at University of Galway is a former chairman of the Irish Fiscal Advisory Council (IFAC) which is tasked with independently assessing the fiscal stance of the Irish Government's budgetary policy.

Professor Eamon O'Shea Has been influential in setting the agenda for the ongoing reform of the long-stay sector in Ireland, particularly in relation to funding, priority-setting and dementia. Eamon lectures in Economics.

Dr Gerard Turley A lecturer in Economics and co-author of several books, including "Principles of Economics", "Transition Economics: Two Decades On", "Transition, Taxation and the State", and "Handbook of the Economics and Political Economy of Transition".

Professor Alma McCarthy Head of the J.E. Cairnes School of Business & Economics and Professor of Public Sector Management at the National University of Ireland, Galway. Recently served as elected Vice-Chair and Chair of the Irish Academy of Management. Accredited and certified member of the British Psychological Society administering cognitive ability, personality and occupational interest psychometric assessments.

Professor Alan Ahearne Director of the Whitaker Institute at University of Galway and currently a member of the Commission of the Central Bank of Ireland and adviser to the Parliamentary Budget Office, is a former senior economist at the US Federal Reserve Board and adviser to the Irish government and the IMF.

Dr. Orla Lenihan, Lecturer in Corporate Governance, Sustainability, and Corporate Finance at postgraduate and executive level. Orla holds a PhD in Corporate Governance and is a Fellow of Chartered Accountants Ireland. Orla has led the design of new modules and innovative assessment methods that align with the United Nations Sustainable Development Goals.

Employability

*There are limited places available, allocated on the basis of merit and student performance.

An Innovative Curriculum

Our courses allow you specialise in the following areas:

Accounting & Performance Measurement:

Students study accounting and accounting-related modules, positioning them for a career in accountancy and finance. Depending on the modules chosen, excellent exemptions are available to successful students in the professional accountancy bodies' exams.

Economics & Public Policy:

Students can apply their economic theory to modules as diverse as the economics of globalisation, the economics of money and finance, and health and environmental economics. With this knowledge and the associated skills students who specialise in economics will be able to work in the private, public or voluntary sectors, as economic analysts, researchers, advocates, policy advisors or economic consultants.

Human Resource Management:

This specialisation focuses on the management of the human factor in organisations, exploring the nature of the employment relationship and the rights and obligations of the parties involved. It also focuses on the theoretical bases for the best utilisation of human resources (HR). It is targeted at students with a particular interest in the human aspect of organisations and those intending to develop a career in the HR management area.

Marketing Management:

This specialisation provides an excellent foundation in a range of key and popular marketing topics, such as media and marketing communications, brand management, marketing analytics and research, digital marketing planning, the marketing of services and global marketing.

Digital Business & Analytics:

This specialisation focuses on the implementation, use and management of information systems within business. It contains practice-based modules that teach students how to create IS using database technology, web design technology and computer programming languages. It also provides modules that enable students to investigate how to manage IS within business. Students will be well positioned to secure jobs as management consultants and analysts specialising in IS or to work within the IS department of a business.

Finance: This specialisation focuses on a diverse range of important contemporary topics in national and international finance, including international monetary systems, banking, exchange rates, financing and investment decisions, taxation, financial reporting, investments and issues of financial management inherent in managing multinational corporations and institutions. Students will be readily employable in private sector financial services firms as well as both Irish and international public sector financial institutions.

Business Law: This stream focuses on law specifically in a business context. It is targeted at students with a particular interest in the legal aspects of business. Students who successfully complete this stream and wish to further specialise in law will be eligible to apply for the LLB.

International Business: This specialisation focuses on managing people, diversity in culture and how to effectively lead and manage in a global marketplace. The specialisation focuses on developing knowledge and expertise in international business and cross-cultural management and provides students with the knowledge and skills required for a career in international management and multinational corporations as well as other organisations. Using a

multidisciplinary approach, students develop their cultural awareness skills and understand how to operate effectively in a dynamic global business environment.

Enterprise: This specialisation focuses on giving enterprising students the structural and academic supports necessary to succeed in an entrepreneurial career. Students will receive the knowledge and supports necessary to succeed and innovate as entrepreneurs in an evolving global economy.

Community Engagement

All Commerce, Commerce (Global Experience), Commerce (International with a Language), Commerce (Gaeilge), Commerce (Accounting) and BIS students will put their business knowledge into practice in their final year, when they take a module in Innovation, Creativity and Enterprise (ICE). Initiated by former Aer Arann entrepreneur, Pádraig Ó Céidigh, this Dragons' Den-type module involves partnering with business leaders to provide opportunities for all students to engage in group-based projects requiring them to innovate in a variety of business areas, or in a community setting.

These attributes are vital in the ever-changing competitive job market. Some areas studied include:

- Theory and practice of innovation in organisations, society and the economy.
- Current thinking and recent developments with respect to innovation.
- Social Entrepreneurship and Innovation.
- Impact of innovation on individuals and society.
- Recognising and developing opportunities for innovation in response to organisational challenges.
- Connecting with your individual capacity for creativity and innovation.

The overall objective of the module is to encourage students to be self-confident in their ability to be creative and innovative in whatever future business or community settings they are working.

University of Galway BComm students Paddy MacDonagh and Chris Bogues won the overall Enterprise Ireland Student Entrepreneur of the Year Award 2017. They won a €10,000 prize and were named 'College Entrepreneur of the Year 2017'.

Bachelor of Commerce (Global Experience)

Fact File

Programme Code:	GY209
Duration:	4 years
Average Intake:	65
Minimum points for entry in 2023:	543

Entry Requirements:

Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate, including: Irish, English, another language, Mathematics and any two other subjects recognised for entry purposes.

Why choose B Comm (Global Experience)?

- There are a broad range of business disciplines in the first two years of the programme which give students an excellent foundation of business knowledge and allow them to decide in which area they wish to specialise in final year.
- Students are empowered to take responsibility for their personal and career development. Students take skills based modules that are specifically designed to improve student employability and prepare them for the workplace by developing a set of practical and interpersonal skills that form the basis for effective working life.
- Students have the opportunity to study abroad at some of the worlds most elite universities and business schools, and gain a new-found global perspective on education in another country.
- Students have the opportunity to complete work placements in leading Irish or multinational companies. This is a fantastic opportunity to put theory into practice and to gain valuable experience in a working environment.
- Our lecturers' links with industry experts ensure that the programme is up-to-date, relevant and increases graduate employability.

Programme Code:	GY201
Duration:	3 years *
Average intake	270
Minimum points for entry in 2023:	441

Entry Requirements:

Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate, including: Irish, English, another language, Mathematics and any two other subjects recognised for entry purposes.

*4 years with optional Global Experience & Work Placement year.

Why choose the Bachelor of Commerce?

- There are a broad range of subjects in the first two years of the programme which give students an excellent foundation of business knowledge and allow them to decide in which area they wish to specialise in final year.
- Students are empowered to take responsibility for their personal and career development. Skills based modules were specifically designed with the help of industry specialists to improve the employability of candidates and prepare them for the workplace by developing a set of practical and interpersonal skills that form the basis for effective working life.
- Case studies, business simulations and company projects act as a bridge between knowledge and skill.
- Our wide variety of optional modules offers students great flexibility to develop their individual expertise.
- Our lecturers' links with industry experts ensure that the programme is up-to-date, relevant and increases graduate employability.
- The programme provides students with a mix of large lectures and smaller group tutorials where they can ask further questions and get help with coursework.

Where can the BComm take you?

Graduates of the BComm are highly successful and sought after in all areas of Business. Our graduates go on to work in a variety of careers including:

- Accounting (both professional practice and industry)
- Management Consultancy
- Taxation
- Commercial Advisory Services
- Economic Policy Advisory Services
- Marketing
- Human Resource Management
- Information Systems Management
- Finance (including Banking and Insurance)
- Education
- Teaching

Global Experience and Work Placement:

The BComm can be extended from three to four years. We offer students a competitive opportunity, based on student performance and merit, to enhance their studies, spending one academic year on work placement and studying abroad, or a full year studying abroad. In third year students will study a variety of courses through English at an international partner university in North America, Australia, Asia or Europe, providing students with an invaluable experience and graduating with a BComm (Global Experience) degree. Students will return to University of Galway to complete their final year.

Graduate Profile

"The wide scope of this programme offered me the luxury of being able to discover the business area which suited me best and make an informed decision regarding my specialisation in final year. I gained the necessary skills to expand my knowledge, develop both hard and soft skills, enhance my business acumen and gain confidence in my abilities."

Sarah Mulholland,
BComm and MSc Marketing Practice
Graduate

The Bachelor of Commerce at University of Galway has a long tradition as one of Ireland's leading business degrees. The BComm is an incredibly flexible three year undergraduate programme which gives students a solid foundation in a broad range of business subjects and allows them to specialise in their chosen field in their final year. Students can specialise in Accounting & Performance Measurement, Economics & Public Policy, Human Resource Management, Marketing Management, Digital Business & Analytics, Finance, Business Law, International Business or Enterprise. This programme is designed for ambitious students who are looking to pursue careers in today's ever changing, dynamic and multicultural world of business.

Fact File

Programme Code:	French GY202 / German GY203 / Spanish GY204
Duration:	4 years
Average intake	15 students per course
Minimum points for entry in 2023:	520 (French)/519 (German)/502 (Spanish)

Entry Requirements:

Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate, including: Irish, English, another language, Mathematics and any two other subjects recognised for entry purposes. For GY202 - H3 in French is required. For GY203 - H4 in German is required. For GY204 - H4 in a modern European language other than Irish or English.

Why choose the BComm (International with a Language)?

- Graduates of this programme not only have a great business qualification but also an international language. This international experience and qualification is highly sought after in today's competitive global job market.
- The large range of subjects in the first two years of the programme give students a broad knowledge of business and allows them to decide which area of business is best for them.
- Small class sizes allow students to ask questions and get help with coursework.
- Our lecturers' links with industry ensure that the course is up-to-date, relevant and useful to today's graduates and employers.
- Students have the opportunity to study abroad at some of the world's most elite universities and business schools, and gain an alternative perspective on education in another country.
- The international year is an integral part/element of the BComm (International with a Language) and provides students with the opportunity to experience a new culture and build a network of global connections. You will also develop your cross cultural awareness and communication skills.

Where the BComm (International with a Language) can take you

Graduates of the BComm (International with a Language) at the J.E. Cairnes School of Business & Economics are highly successful and sought after in all areas of Business. Graduates go on to work in a variety of careers including:

- EU institutions such as The European Central Bank, The Diplomatic Service and The European Parliament
- Accounting - both professional practice and industry.
- Management Consultancy
- Taxation
- Commercial Advisory Services
- Economic Policy Advisory Services
- Marketing
- Human Resource Management
- Information Systems Management
- Finance (including Banking & Insurance)
- Information Systems Management

Graduates of the course can also go on to study on a wide variety of postgraduate programmes in their chosen discipline in the J.E. Cairnes School of Business & Economics.

Graduate Profile

Spending four years studying Commerce with German was a decision that I will be forever grateful for. Studying German in university was a fantastic experience. Smaller interactive class sizes combined with dedicated lecturers greatly enhanced the learning experience. This course gave me the competitive edge through a combination of business and language skills to succeed in my career.

Emma Cleere – BComm (International with German)
Manager of Customer Success at 7shift

The Bachelor of Commerce (International with a Language) degree is a four year globally recognised undergraduate programme which develops students' Business and Language skills. Students gain knowledge on a broad range of business subjects as well as experiencing life in France, Germany/Austria, or Spain/Chile/Mexico for one year, which gives them an invaluable insight into international business and culture.

This programme provides unique academic, cultural and language opportunities for students. It is designed to equip you with the skills and knowledge to work in a fast-paced and ever changing global business environment.

Fact File

Programme Code:	GY208
Duration:	4 years
Minimum points for entry in 2023:	475

Entry Requirements:

Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate, including Gaeilge, English, another language, Mathematics, and any two other subjects recognised for entry purposes. A H4 in Gaeilge is also a requirement.

Why choose Bachelor of Commerce (Gaeilge)?

The BComm (Gaeilge) was introduced following demand from students for a programme that combines the study of Business and the Irish Language. All Business subjects are taught through English while students also study Gaeilge throughout their degree.

- Graduates of this programme will not only have a great business qualification but also an in-depth knowledge of the Irish language which will give them a competitive advantage in today's job market.
- The large range of subjects in the first two years of the programme gives students a broad knowledge of business and allows them to decide which area of business is best for them.
- Our lecturers' links with industry ensure that the course is up-to-date, relevant and useful to today's graduates and employers.

Where the BComm (Gaeilge) can take you

Graduates of the BComm (Gaeilge) at the J.E. Cairnes School of Business & Economics will be highly sought after in all areas of Business. Graduates can go on to work in a variety of careers including:

- Accounting - both professional practice and industry
- Management Consultancy
- Taxation
- Commercial Advisory Services
- Economic Policy Advisory Services
- Marketing
- Human Resource Management
- Information Systems Management
- Finance (including Banking & Insurance)
- Entrepreneurship
- Teaching

Graduates of the course can also go on to study a wide variety of postgraduate programmes in their chosen discipline, the Irish Language or Education (including Teaching).

This degree is designed to allow graduates to teach both business related subjects and Gaeilge at second level once they have acquired a teaching qualification and meet the Teaching Council's subject specific requirements.

Student Profile

I chose to study the BComm le Gaeilge as I've always wanted to continue the use of Irish throughout third level education and onto my professional career. Having not attended a Gaelscoil, I was worried that I'd struggle with the Irish aspect of the course, but I found there was a happy medium between both Irish and English modules. Immersing our small group in a Irish language environment in third year, both with a semester studying in the Gaeltacht and a semester work placement in an Irish business environment, has really prepared me for my final year and the working world.

Kayleigh Laffey, BComm (Gaeilge)
Marketing Communications Specialist at BlueWise Marine

Work Placement and Gaeltacht Semester:

Year three of the programme is divided between a one semester internship in an Irish-speaking environment and a semester studying in Áras Mháirtín Uí Chadhain, a University of Galway centre in an Cheathrú Rua.

Acadamh na hOllscolaíochta Gaeilge will organise the work experience in conjunction with Údarás na Gaeltachta. Údarás na Gaeltachta has 400 client companies, in various sectors – including biomedicine and pharmacology, ICT, niche manufacturing, audio visual and digital media, tourism, fish processing and aquaculture, renewable energy, food processing and arts and crafts. Students have also been placed with organisations such as Gaillimh le Gaeilge, Foras na Gaeilge and Conradh na Gaeilge etc.

This is a four-year degree programme in Commerce including the study of the Irish Language, allowing students to develop their language skills while gaining valuable insights into business and culture. This programme provides unique academic, cultural and language opportunities for students. This degree will equip you with the skills and knowledge to work in a fast-changing business environment.

Course Outline

Duration:	3 years/(4 years*)
Average intake	30
Minimum points for entry in 2023:	520

Entry Requirements: A minimum of a H4 in Accounting is required. Along with this a minimum grade H5 in one other subject and passes in four other subjects (at O6/H7 level) in the Leaving Certificate, including: Irish, English, another language, Mathematics and any other subject recognised for entry purposes.

The BComm (Accounting) is the only degree in Ireland requiring leaving certificate accounting as an entry requirement, therefore, you will move onto a more advanced and intensive study of accounting in 1st year with minimal time needed to review the basics.

Recognised exemptions from the professional examinations:

Why choose BComm (Accounting)?

- Graduates of this course will receive the maximum exemptions available to the programme from examinations set by the large professional bodies who train and accredit accountants and finance professionals in Ireland.
- The limited number of places on this course means that students benefit from small classes in some of the key accounting modules.
- According to Grad Ireland, there are more job opportunities in accountancy and financial management than any other area. They also report that accounting graduates are the most satisfied that their degree equipped them with the requisite skills for today's labour market.
- A key feature of the BComm (Accounting) is our emphasis on the development of our students' personal and transferable skills for the workplace through our Skills for Business module in 2nd year and our Innovation, Creativity and Enterprise module in final year.

- Our lecturers' links with industry ensure that the programme is up-to-date with current and emerging trends and our students benefit from guest lecturers who bring insight into the role and challenges facing accountants in industry and practice today.
- Students taking the optional Global Experience & Work Placement year and those who participate in summer internships with accounting firms embed their knowledge in a practical context. This experience can be formally incorporated into the programme as a full module credit in final year. The majority of our students on completion of their placement are offered contracts of employment to take up after completing their degree.

Visit the Bachelor of Commerce Accounting web page to see full list of Professional Accounting Body Examination Exemptions.

Where the BComm (Accounting) can take you

This degree provides a gateway to a successful career in accounting, taxation, corporate finance and related professions. Many of our graduates will be recruited by Accounting firms where they will complete their training as professional accountants or tax specialists. Others will pursue graduate training opportunities in a diverse range of commercial, industrial, financial service or public sector organisations. Whether employed in practice or industry, the salaries and career prospects are excellent. Many accountants use their professional qualifications as a springboard to top management positions. There are also plenty of opportunities for post graduate study after completing the B Comm (Accounting). These include a Master of Accounting programme and the MSc (International Accounting & Analytics), which are offered at University of Galway, or Masters programmes in Banking, Economics, Corporate Finance, Taxation and related disciplines such as proceeding into 2nd year of the LLB (Law Degree) Programme.

Graduate Profile

Moving into third year, I chose to do the Global Experience year. A four month exchange programme was followed by a six-month work placement in PricewaterhouseCoopers. The B Comm (Accounting) Global Experience course allowed me to specifically focus on accounting, but also gave me an excellent opportunity to broaden my knowledge of other business subjects.

Patric Evason, Senior Corporate Accountant at Diligent

The Bachelor of Commerce (Accounting) is a three year undergraduate degree at University of Galway. It combines a broad-based business education with the advantages of a specialist programme for those interested in a career in accounting or a related discipline. This programme offers excellent levels of exemptions from the examinations of all of the major professional accountancy and taxation practitioner bodies. Our internship and placement partners include: PWC, KPMG, Deloitte, EY, Grant Thornton, DHKN, Crowe Howarth, Supermacs and Mazars.*

**4 years with optional Global Experience & Work Placement year.*

Course Outline

YEAR ONE:

Compulsory modules

Principles of Microeconomics/ Macroeconomics
Accounting
Financial Reporting
Business Information Systems
Mathematics and Statistics for Business
Management: Enterprise and Society
Foundations of Marketing Thought
Skills for Success
Business Law I

YEAR TWO:

Compulsory modules

International Financial Reporting II
Auditing, Assurance and Governance
Management Accounting I
Inferential Statistical Methods for Business
Applied Microeconomics for Business
Skills for Business
International Financial Reporting III
Business Finance I
Business Law II
Macroeconomics and the Business Environment
Information and Operations Management

Choose ONE of the following:

Information Systems & Project Management
Work and Employment Relations
Introduction to Financial Economics
The Psychology of Consumer Behaviour
Economics of Public Policy
Advanced Statistical Methods for Business
Doing Business in China: Language & Culture I

FINAL YEAR:

Compulsory modules

Advanced Business Law
Advanced Financial Accounting
Management Accounting II & III
Taxation I & II
Business Finance II
Innovation: Creativity and Enterprise

Choose four advanced electives from the following areas:

Economics
Information Systems
Marketing
Organisation & Human Resource Management
Law
Operations/Logistics
Doing Business in China: Language & Culture II
Accounting Internship (Completed During Previous Summer)
Enterprise

Global Experience and Work Placement*

Students have the opportunity to add an international experience dimension to their degree at the end of second year, when they can apply on a competitive basis to transfer from the three year BComm (Accounting) degree to the four-year BComm (Accounting) with Global Experience degree. Successful applicants will spend one semester of third year studying abroad through English and a second semester in a work placement. The students will then return to University of Galway for fourth year to complete their degree.

Fact File

Programme Code:	GY206
Duration:	4 Years
Average intake	40
Minimum points for entry in 2023:	507

Entry Requirements:

Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate including: Irish, English, another language, Mathematics and any two other subjects recognised for entry purposes.

Why choose Business Information Systems?

- **EFMD Accredited:** This programme confers to the highest international standards.
- **Excellent employment opportunities:** Our graduates are employed by Accenture, Avaya, CISCO, Google, KPMG, Deloitte, Intel, Lawler Developments, Lionbridge, Pramerica and IBM to name just a few.
- **The BIS Global Learning Initiative** delivered in partnership with prestigious foreign universities, is designed to incorporate an international learning experience into the programme and includes an opportunity to study abroad, take up foreign work placement, participate in international virtual teams and learn from guest international speakers.
- **The BIS Industry Engagement Initiative** includes a paid work placement and site visits to leading multi-national companies. Our membership of the SAP and Microsoft University Alliance provides our students with access to the latest industry software while our Industry Advisory Board ensures that the skills, methodologies and theories that you learn are consistent with industry needs.
- **Study Abroad:** BIS students have the option to study abroad in our partner universities in year 2. Some of our partners include City University Hong Kong, Kogod School of Business (Washington DC, USA), Montana State University (USA), Lehigh University (NY, USA), and the University of Liechtenstein.
- The small classes mean that

you will get a more personal experience.

- The dedicated BIS facilities are excellent and include three computer suites, a seminar room and a collaborative learning facility.
- The blend of business, technology and technology management makes holders of the degree particularly attractive to a diverse set of employers.
- New modules introduced on our BSc (Business Information Systems) include Cybersecurity, Implementing Digital Innovation, and Advanced Research Topics in IS.

Where the BIS programme can take you

98% of BIS graduates are now in degree related employment. The mix of business acumen, technology skills and management knowledge combined with communication and team skills makes Business Information Systems graduates valuable assets to any organisation. Our graduates pursue careers across a wide spectrum of job titles. Many choose to focus on their business

skills and pursue careers as diverse as entrepreneurship, sales, management, or non-business careers such as teaching or law enforcement. Other graduates focus more on their technology skills and pursue more specialist careers such as:

- **Business analyst** - defining the optimal technology to drive business.
- **Software tester/ developer** - application development and testing.
- **eCommerce consultant** - leveraging internet related technologies for business.
- **e-Business specialist** - managing supply chains or customer relationship management systems.
- **IS manager** - managing the range of hardware, software and networking equipment in any organisation.
- **Specialist IS consultant** - working with enterprise systems such as SAP or Oracle.

BIS gives you the flexibility to define your career.

Graduate Profile

The BIS undergraduate degree is the perfect blend of business and technology. If you're interested in one, or both of those areas, I would 100% recommend this course to you. The lecturers and staff in J.E. Cairnes School of Business & Economics help you to develop an understanding of both worlds.

Through the study abroad option in second year of the course, I got to study in Villanova University with the help of a scholarship programme. While there, I got to study new modules, increase my knowledge in areas I liked, and even made long lasting connections and friends which I still use today.

**Brian Barrins, BSc BIS,
Security Delivery Associate Manager at Accenture**

EFMD accreditation is by the European Foundation for Management Development and confers that the BSc. BIS meets the highest international standards for management education.

BSc Business Information Systems (BIS) is an EFMD accredited innovative 4-year undergraduate degree that explores the use of technology in the modern business environment. Incorporating skills development in technology, business and technology management through individual, team and virtual team project work combined with our global learning and industry engagement initiatives. The B.Sc in BIS degree provides you with the ideal platform for a successful career in business.

| • Advanced Application Development I | • E-Business Technologies | • Implementing Digital Innovation |
| • Introduction to Sustainability | • Plus two electives, from a range including: | • Enterprise System |
| • Decision Modelling and Analytics | • Management Accounting I | |

International Study Abroad Programme-limited places available

YEAR THREE:

'Study Abroad: BIS students now have the opportunity to avail of a Global Experience year as part of their studies. Semester 1 will typically consist of a period studying abroad with a global partner university. In some cases, it may be possible to undertake a period of work placement abroad. In cases where a student cannot travel abroad, they will follow a programme of global activities that achieves the learning goals of the programme. Some of our partners include City University Hong Kong, Kogod School of Business (Washington DC, USA), Montana State University (USA), Lehigh University (Pennsylvania, USA), FNHW, Switzerland, and ESC Rennes (France).

Work Placement: Semester 2 of year 3 will feature a paid work placement. Placements are secured via competitive selection and can vary in length from 3 to 8 months. Our membership of the SAP and Microsoft University Alliance provides our students with access to the latest industry software while our Industry Advisory Board ensures that the skills, methodologies, and theories that you learn are consistent with industry needs. Recent placements have included SAP, Dell, OnePageCRM and EY.

YEAR FOUR:

BUSINESS

International Business

Business Strategy

Innovation: Creativity & Enterprise

TECHNOLOGY MANAGEMENT

Information Systems Strategy & Planning

Contemporary Issues in Information Systems

Lean Principles for the IS Professional

TECHNOLOGY

Business Intelligence & Analytics

Cloud Computing

User Experience Design

Final Year Project

Plus two electives, from a range including:

- Doing Business in China I & II
- Entrepreneurship

- Lean Principles for the IS Professional
- Ethics & Corporate Responsibility

Fact File

Programme Code:	GY309
Duration:	4 Years
Average intake	60
Minimum points for entry in 2023:	509

Entry Requirements: Minimum H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate including: Irish, English, Mathematics, a third language or a laboratory science subject (i.e. Chemistry, Physics, Biology, Physics with Chemistry (joint) or Agricultural Science) and any two other subjects recognised for entry purposes. A H5 or O1 in mathematics is required.

Why choose the BSc in Financial Mathematics & Economics?

- **Excellent employment opportunities:** The demand from employers for well-qualified students with knowledge of how financial markets operate and how to use quantitative techniques to make informed investment decisions is substantial.
- **Broad, multidisciplinary programme:** With contributions from four different disciplines at University of Galway, the multidisciplinary nature of this programme is explicitly designed to be broader than the specialised actuarial programmes being offered by other Irish universities.
- **Actuarial exemptions:** The Faculty and Institute of Actuaries recognises this programme for exemptions from several professional CT level subjects.
- **Cutting-edge learning:** Students will apply their learning to current and emerging trends in areas such as fintech, cryptocurrencies (such as Bitcoin), payments technologies, as well as the mathematics of artificial intelligence and blockchain technology.

- **Guest speakers from financial services:** Ensure that students gain practical insights into industry developments.
- **Student Managed Fund (SMF):** Using real money and buying actual shares in companies, the student-run fund gives those pursuing the Financial Mathematics & Economics programme the opportunity to learn how investment management works in practice. Students typically move from analyst roles in earlier years to become fund executives in later years.

Where the BSc in Financial Mathematics & Economics can take you

- **Financial services –** opportunities for graduates exist right across the financial services sector: in investment, corporate and private banking, in currency trading, in credit risk and in management of hedge funds. Some of the world's leading financial firms have hired our graduates, including Goldman Sachs, JP Morgan, Merrill Lynch and Credit Suisse.

- **Actuarial profession:** graduates can embark on a career as an actuary, working primarily in pensions, life insurance and investments. About one quarter of our graduates in recent years went on to complete postgraduate actuarial studies and some graduates went directly on to positions as trainee actuaries. There are currently more actuarial opportunities in Ireland than there are graduates each year.
- **Other areas –** opportunities for our graduates exist in government departments and other public sector bodies, where they play key roles affecting the national economy. In recent years, graduates have been hired by the Department of Finance, the Central Bank of Ireland, the Bank of England, and the National Treasury Management Agency (NTMA). Moreover, because of their strong numeracy skills, graduates have also secured employment in a wide variety of different areas, for example, as economists, in accountancy, tax and law, in management consultancy and even as a sports odds compiler.

Graduate Profile

When I left school, I was not sure what I wanted to do, so I thought it best to keep my options open. I have now started as a trainee actuary and the groundwork I have already completed on my undergraduate programme is invaluable.

Noel Lawless, BSc in Financial Mathematics and Economics, Head of Transformation Design & Delivery, Vhi Healthcare

The BSc. in Financial Mathematics and Economics (BSc in FME) programme is a four-year degree programme consisting of courses in Mathematics, Economics, Statistics/Probability, Applied Mathematics, Accounting and Business Finance and Computer Science. The aim of the programme is to equip students with expertise in quantitative subjects with a particular focus on financial economics, actuarial mathematics and statistics.

For more information about the BSc. in Financial Mathematics and Economics, go to www.universityofgalway.ie/science-engineering/school-of-maths/student-information/financialmathematicseconomics/

Course Outline

YEAR ONE:

Mathematics	Financial Accounting	Mathematical Methods I
Economics	Computer Science	
Statistics & Probability	Mathematics of Finance	

YEAR TWO:

Analysis I	Discrete Mathematics	Algebra
Probability	Statistical Inference	Algorithms
Intermediate Microeconomics	Intermediate Macroeconomics	Modelling, Analysis & Simulation
Introduction to Financial Economics	Mathematical Methods II	Analysis II

YEAR THREE:

Applied Statistics	Actuarial Mathematics I	Metric Spaces
Microeconomics and Public Policy	Mathematical Modelling	Macroeconomics and Public Policy
Money & Banking	Groups I	Business Finance
Economics of Financial Markets	Annuities and Life Insurance	Topology

YEAR FOUR:

Financial Theory	Stochastic Processes	Non-Linear Systems
Numerical Analysis	Differential Equations with Financial Derivatives	Networks
Final-year Project (over 2 semesters)	Actuarial Mathematics II: Life Contingencies	International Monetary Economics
Derivatives & Risk Management	Measure Theory	

Fact File

Programme Code:	GY101
Duration:	3 years (4 years for BA International)
Average intake	850
Minimum points for entry in 2023:	336

Entry Requirements:

Minimum Grade H5 in two subjects and passes in four other subjects at O6/H7 level in the Leaving Certificate, including: Irish, English, another language, and three other subjects recognised for entry purposes.

For more information about this course, please contact Dr Aidan Kane at aidan.kane@universitygofgalway.ie or T: 353 91 492530 and have a look at the following websites: www.universitygofgalway.ie/economics www.universitygofgalway.ie/arts

**Why study economics as part of a BA?**

In addition to the option of studying economics as part of a business degree, University of Galway also makes economics available as part of the BA Joint Honours degree. In this programme, students choose three subjects in first year, and continue with two of those subjects in second and final year. So one might end up with a BA Joint Honours degree in economics and geography, or economics and law, for example.

There is a very wide range of subjects one can combine with economics through the BA route (although not the main business disciplines available in the B Comm degrees).

The level and range of economics in both the BA and B Comm routes are the same: the difference is the combination of other subjects available to you in each. In either case, we do not expect you to have taken economics before e.g., at Leaving Cert level: we teach economics 'from scratch'.

Economics is an exciting and challenging area of study, and has never been more relevant for so many people. Studying economics gives you an insight into the many economic relationships in the real world around you. It provides an introduction to the analytical tools you need to help explore and understand these fascinating relationships. It gives you the opportunity to deepen your understanding of current affairs, the economics of the market place, economic factors influencing politics and how economic issues have influenced the course of history.

In introductory economics courses, you first encounter the key analytical tools which economists use to understand markets and economies, and the role of governments in them. These tools are immensely useful for better appreciating developments in the economy, nationally and internationally. They are also foundations upon which more advanced work in specific areas of economics can later be built, opening up varied and challenging landscapes for enquiring minds.

Specialist study in economics

You can extend and deepen your study of economics in many directions, depending on your aptitudes and interests in the BA degree.

For some economics students, later years' study involves deep engagement with the economics of public policy, such as the economics of health, the economics of education, or the economics of the environment.

Similarly, an economics student may have options to delve further into macroeconomics and financial economics, through courses in the economics of money and banking, the economics of international trade, or the theory and empirics of long-run economic development, for example.

International links

As part of the BA (International) programme, you may have the option in your third year of studying economics abroad in a European university which teaches through English. For example, students recently have spent a year in universities in Germany, Sweden and the Netherlands.

**Career options**

A degree in economics provides you with a wide array of both subject-specific and transferable skills, of enormous importance to the world in which we live. Graduating with a degree in economics can lead to working for a variety of employers, including governments, private companies and non-governmental organisations (NGOs).

Graduate Profile

This degree gave me a great deal of economic and legal knowledge in a stimulating environment conducive to discussion and learning. The skills obtained were a springboard that opened up a range of professional opportunities as a public policy economist. Galway itself is a wonderfully vibrant student city.

Tom McDonnell,
BA (Economics and Law).

Natasha Gilmour, BComm (Global Experience) Class of 2021

The past four years on the BComm (Global Experience) have been filled with exciting opportunities, new places and friends, and memories that will make me smile and laugh for a lifetime. The first and second year of the course provided a firm and broad foundation across all business disciplines. This gave me an understanding of the diversity of skills required across all departments of a large multinational company, or in the case of an early start-up, the many hats an entrepreneur must wear!

In my third year, I spent eight months in Athlone, gaining valuable work experience and friends at Ericsson - a multinational telecommunications company, where I learned under the supportive guidance of mentors across Operations, Recruitment and the INFUSE Program. My supervisors and

colleagues invested their time and effort into challenging learning opportunities, ensuring I constantly developed my knowledge and skills - an investment that will continue to give dividends throughout my career.

After taking an eye-opening module in Chinese Language & Culture, I successfully applied for a Scholarship to Tsinghua University's 2019 International Summer School. I travelled to Beijing, where I represented Ireland and University of Galway and met with 200 students from around the world to explore and discuss China's economy, history and culture as well as visiting monumental sights such as the Forbidden City and The Great Wall of China. This is just one example of the many opportunities that are open to BComm students.

For the second part of my 'Global Experience Year', I packed my bags for Australia to study for a semester at the University of Technology Sydney. This was a particularly special opportunity

for me as I got to live with my sister who has been in Australia since 2009! I studied Event Management & Tourism, while soaking up the sun and visiting everything Sydney's outdoors has to offer.

I returned home to complete final year virtually from Donegal. And while I dearly missed Galway and all its charm, our lecturers made the transition to online learning very smooth, with continuation of team projects, presentations and the annual 'Innovation: Creativity & Enterprise' competition. I decided to pursue the Enterprise Stream and hope to start my own business after a few years in industry.

I would highly recommend the BComm (Global Experience) to anyone thinking about a career in business. My 'Global Experience' year definitely promoted my interest in an international career, expanded my network and developed my international outlook, skills and ability to adapt to an ever more global work environment.

More of our graduates include:

Anne Marie O'Toole
HEAD OF MARKETING, WEST
DIVISION
KINGSPAN INSULATED PANELS,
FRANCE

"I can safely say that all skills that I now use on a daily basis were unleashed and developed while studying the B Comm (International) at University of Galway. Interpersonal and teamwork skills are paramount in college and even more so in a professional position once you are out of university. Having spent a year in Poitiers on Erasmus, my cultural and linguistic competences were also vastly improved. The hands on case study work done during our final marketing stream was also a great lesson in time management, people management and developing organisational skills."

Ellen Murray
(INTERNATIONAL WITH
FRENCH) GRADUATE

The range of topics and different pathways you can take is something that really attracted me to the course. The language option has really given me a broad-rounded education. I can't imagine where my life would be now without French. I absolutely love it. Initially I wasn't too sure whether my language skills would be able for the course however our French lecturer is unbelievable, and it gives edge to your personal profile - especially to employers.

Katie Larnihan
STRATEGIC PROGRAMME MANAGER
AT NORMATIVE.IO

The BIS course offers students an education and skillset that is unique, competitive, and relevant. Through BIS I built a strong global network through international guest lectures, my Erasmus at La Rochelle Excelia Business School, talented faculty at J.E. Cairnes School of Business and Economics who are incredible mentors to my class and through industry leaders who connected with our class, incl. SAP where I completed my 8-month Internship and where I continue to build my career since graduating in 2019. I would encourage any individual who wishes to pursue a successful and exciting career in the rapidly accelerating world of technology to consider this course. As a young woman in tech, BIS has provided me a diverse and extensive knowledge base that is relevant and reflective of the demands, trends, and strategy of the technology industry today allowing me to fully thrive in my role at SAP and many aspects of my professional life!

Amy Hardiman
TECHNICAL CONSULTANT
AT CHIPRIGHT

I chose the course as business and Irish were my favourite subjects in school. This year I spent a semester studying in the Acadamh, an Cheathrú Rua and living in the Connemara Gaeltacht, a unique aspect of BComm le Gaeilge. This was very beneficial in improving my Irish as I was learning in a natural environment outside the classroom. I spent second semester on work experience through the medium of Irish. In my opinion the opportunity to do this is the biggest advantage of this course as I learned lots of new skills for the world of work. Another benefit of this course is that it only accepts a small number of students therefore it is easy to make new friends for life.
